Notes:

● Students must earn a minimum grade of “C-” in ENGL 103 and should complete this introductory writing course in their 1st year of enrollment.
● All students enrolled in ENGL 103 must pass an Exit Exam at the end of the term. Students not passing this exit exam are required to enroll in ENGL 214WI prior to reaching 60 hours. It is not necessary to pass this exam in order to pass ENGL 103. ENGL 214WI counts as an elective course.
● Students not qualified to begin at the ENGL 103 level may be required to take ENGL 101 prior to enrolling in ENGL 103. The hours earned for ENGL 101 will count as elective hours in the degree program.
● It is recommended that students complete the Technology, Mathematics, and foreign language (if applicable to degree chosen) requirements by end of their sophomore year.
● Placement in a “Core” Mathematics course assumes the student is qualified beyond the MATH 104 level. If not, students may be required to take MATH 100 and/or MATH 104 prior to enrolling in a higher level Mathematics course. The hours earned for MATH 100 and/or MATH 104 will count as elective hours in the degree program.
● Placement in foreign language is determined by previous college background and/or foreign language placement test.

DOCB Recommendations: Students pursuing the Bachelor of Science and other Bachelor degrees who elect to take foreign language to satisfy the Global Studies requirement must complete one 102-level or above foreign language course or equivalent. International or bilingual students who are granted a waiver from the foreign language requirement must still satisfy the Global Studies requirement by taking one International Studies (IS) course or studying a new language through the 102 level.
Accounting: 21 hours. The sequencing of these requirements is critical. It is suggested that the full series of requirements be scheduled by the beginning of the junior year.
