

2024 Sponsorship Opportunities

Jacksonville University's Rock the Docks is an event to elevate, raise awareness and support the JU waterfront programs - Marine Science Research Institute, JU Rowing, JU Sailing, and OCEARCH at JU. The waterfront is an integral component to the JU student experience as well as critical to understanding and solving many of our environmental issues. JU students and athletes from these programs learn to focus their passion for the water through research, teamwork, and hands-on experiences to improve JU, the community, and our aquatic world.

Join us for Rock the Docks at the River House to benefit JU students and these important programs!
