You have choices when it comes to the cost of your health care.

- Shop, compare and estimate your medical costs.
- The quality and price of medical services can vary depending on where you go for office visits, imaging services, and surgery, including inpatient and outpatient care.
- Compare quality and cost before you go, and then decide what’s best for your care.
- Cost estimates are based on your plan and where you stand with your deductible.¹ Your costs are lower after your deductible is met—pay only coinsurance or a copay for in-network services.
- You could save hundreds of dollars, or more on your health care services!
