**Responses to Written Questions
RFQual 26-001
Construction Manager at Risk (CM) Services for Health Sciences Complex Buildout**

Question Number	Question	Answer
1	Could you please confirm how many hard copies you would like submitted as part of the RFQ response? If there are any specific formatting or packaging requirements for the hard copies, we'd be happy to follow those as well.	The preference of the University is that responses are formatted as requested in the Request for Qualifications, using the tabs and section headers. While we will accept an electronic-only submittal, our preference would be that five (5) physical copies also be submitted, in binders or folders, with the appropriate tabbed sections as specified in the RFQual. The physical copies shall be numbered 1-5.
