Cancel

Complete the “*Academic Plans*” section as illustrated below:

The screenshot shows a web application interface for 'APPLICATION INFORMATION'. On the left is a navigation menu with links: Home, Instructions, Academic Plans (highlighted in yellow), Personal, Personal Relations, Academic History, Essay, Application Certification, and Review and Submit. The main content area is titled 'APPLICATION INFORMATION' and 'Your Academic Plan'. It contains several dropdown menus: 'Applying As:' (Non-Degree), 'Academic Program:' (Non-Degree Undergraduate (Communication Sciences and Disorders)), 'Where would you like to complete your SLP prerequisites?' (Online/Study Abroad, Sorrento Italy), 'Anticipated Entry Term:' (Summer 2020), 'Are you a current JU student or a JU alumni?' (dropdown arrow), and 'Reason For Seeking A Non-Degree Status:' (Speech Language Pathology Pre-Requisites). A 'Continue' button is at the bottom. A note explains that non-degree programs are for students with a Bachelor's degree seeking prerequisites for a Master's program. It also mentions a partnership with Sant'anna Institute for a Pathways to Speech Language Pathology program.

Under “*Academic History*,” please list only colleges and universities attended; do not enter your high school information. Once we have copies of your college transcripts, your application will be reviewed and a decision rendered. If admitted, you will receive additional information from the departments of Communication Sciences & Disorders and Study Abroad.

If you have any questions or concerns regarding the Pathways to Speech-Language Pathology program or the application process, please contact Academic Advisor Pamela Adrian at padrian@ju.edu.
